PROFESSIONAL SUMMARY

Results-driven Frappe Developer with hands-on experience building and deploying custom ERPNext applications across service management and enterprise workflow automation domains. Proficient in Python, JavaScript, and the Frappe Framework — with proven ability to design DocTypes, configure multi-level approval workflows, automate invoicing, and integrate inventory modules. Experienced in REST API testing and Agile delivery. Actively targeting Frappe Developer, ERPNext Developer, and ERP Technical Consultant roles across the UAE, Saudi Arabia, and Qatar.

TECHNICAL SKILLS

ERP & Framework: Frappe Framework, ERPNext, Custom App Development, DocTypes, Workflows, Server Scripts

Languages: Python, JavaScript, Java, HTML5, CSS3

Frontend: React.js, Jinja Templating, Frappe UI

Databases: MySQL, PostgreSQL, RDBMS

Cloud & DevOps: AWS S3, Git, GitHub

Testing & Tools: Manual Testing, API Testing (Postman), Jira, Taiga, Figma, Agile / Scrum

WORK EXPERIENCE

Software Engineer – Frappe / ERPNext | Aerele Technologies

Dec 2025 – Present

Quickfix – Service Management ERP (ERPNext Custom App)

- Architected and deployed a production-grade custom Frappe app, digitalising end-to-end repair shop operations and eliminating **100% of manual paper-based workflows**.
- Engineered **10+ custom DocTypes** covering Job Cards, technician assignment, and spare-parts inventory, reducing data entry time by ~40%.
- Implemented multi-stage approval workflows and automated invoicing logic, cutting invoice processing time from hours to minutes.
- Integrated inventory tracking with real-time stock deduction on job completion, improving parts availability visibility across operations.
- Collaborated with stakeholders to map business requirements into ERPNext configurations, delivering the module on schedule within an Agile sprint cycle.

KYO Restaurant Group, Cambodia - Frappe | ERPNext

- Implemented and customized ERPNext v16 for a multi-outlet restaurant business, configuring Buying, Selling, Manufacturing, Inventory, and Accounts modules for Central Kitchen and outlet operations
- Automated procurement, inventory, and production workflows through **Purchase Order approvals, quantity-deviation controls, price-fluctuation validation, role-based authorization, Material Request consolidation, and Production Plan generation**
- Developed Frappe Framework solutions using Python, JavaScript, and SQL, delivering custom DocTypes, Workflows, Client & Server Scripts, Print Formats, Scheduler Events, FEFO batch controls, and optimized Script Reports

KEY PROJECTS

ETEMS – Enterprise Travel & Expense Management System | Python • Frappe • ERPNext • JavaScript

- Delivered a workflow-driven ERP module automating Travel Requests and Expense Claims with 3-tier approval (Employee → Manager → Finance), reducing reimbursement cycle time by **50%**.
- Implemented automated advance disbursement, payable/receivable reconciliation, and audit-trail reporting, ensuring **100% financial compliance**.

Event Scheduler – Web-Based Management System | Python • Flask • MySQL

- Built full-stack event scheduling platform with REST API backend, MySQL integration, and scheduling logic supporting concurrent event tracking for **500+ events**.

Ruban Mobiles – Business Website | HTML • CSS • JavaScript • AWS S3

- Engineered and deployed a responsive e-commerce-ready website on AWS S3, featuring dynamic product catalogues, integrated Google Maps location, and contact automation.

EDUCATION

B.Tech – Information Technology | Karpagam Institute of Technology, Coimbatore CGPA: 8.1 | 2022 – 2026

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations • NPTEL: Data Structures & Algorithms (Java) • RDBMS – IIT Bombay (Spoken Tutorial) • Python Programming – Aspire Dev Academy
